

ImaGBMC Imaging Mouse Models

Organised by the transversal axis: Mouse Model for Human Diseases at IGBMC
Nicolas Charlet-Berguerand, Gérard Gradwohl, Yann Héroult, Philippe Kastner, Arnaud Poterszman, Daniel Metzger, Bernardo Reina San Martin

14:00-14:15 Yann Héroult, IGBMC Strasbourg
Welcome

14:15-14:45 David Brasse, IPHC Strasbourg
Cyrce: a preclinical molecular imaging platform in Strasbourg

14:45-15:15 Stéphanie Lerondel,
CNRS UPS44 TAAM, Orléans
Preclinical imaging for biomedical research and drug discovery : some examples from our experience

15:15-15:45 Paolo Loureiro de Sousa,
Icube Strasbourg
Small Animal 7T MRI Imaging Facility- ICube Laboratory

15:45-16:15 Laurent Monassier,
Laboratoire de Neurobiologie et Pharmacologie Cardiovasculaire, Faculté de Médecine Strasbourg
Ultrasound in vivo imaging using the Vevo 2100: experience at the Mouse Clinical Institute

16:30-17:00 Laura Harsan,
Medical Physics Uniklinik Freiburg
Mapping with MRI the living mouse brain neuronal networks: Structural vs. Functional connectivity

17:00-18:00
Coffee, tea & open discussion

September 24th 2014

IGBMC Auditorium - Illkirch, Strasbourg
2pm - 6pm

Compulsory & free registration : ics@igbmc.fr
