

Cell Biology Minisymposium

Monday 23 November 2026
10 am - 12 pm IGBMC Auditorium

Shaping Cell Function:
Organelle Networks and Lipid Metabolism

Yvon Jaillais

Feedback between PI4P signaling and ER-PM contact sites orchestrates polarized cell growth

Laboratoire Reproduction et développement des plantes (RDP, UMR 5667)
ENS de Lyon, CNRS, INRAE, Lyon, France.

Katia Zanier

Rewiring of sterol metabolism through p53 deregulation in HPV transformation: origins and consequences

Laboratoire Biotechnologie et signalisation cellulaire (BSC, UMR 7242)
CNRS–Université de Strasbourg, Illkirch, France.

Kristine Schauer

Multi-disciplinary approaches to understand organelle network architecture in health and disease

Gustave Roussy, unité Dynamique des cellules tumorales (Inserm U1279)
Université Paris-Saclay, Villejuif, France

Organized by Catherine Tomasetto and Fabien Alpy
